Curriculum frameworks provide guidance for implementing the content standards adopted by the State Board of Education (SBE). Frameworks are developed by the Access Board and The Association on Higher Education and Disability. They are designed to help in identifying and using all types of instructional materials and on developing an institutional plan.

Outreach & Education (Woodruff Library): Pedagogy/Types of Instruction

The Library offers a variety of instructional modes to meet the diverse demands of an electronic library classroom for hands-on experience with library resources.

In order to deliver the best education for urban youth, the library must be able to identify and implement effective instructional programs. It is important to consider whether instructional materials being considered for use in the library are effective and if they can help keep educational programs aligned with new technologies and educational standards.

Instructional technology can help keep educational programs aligned with new technologies and educational standards. It can be used to create more effective instructional materials and to make delivery more convenient.

Instructional materials include textbooks and related core materials such as workbooks. File types to consider, from most to least flexible are:

- PDF
- Microsoft Word
- Microsoft Excel
- Google Docs

Detailed descriptions of many types of materials such as:

- Wood
- Ceramics
- Glass
- Composites
- Concrete
- Electronic/optical
- Metals
- Polymers/plastics

Information and resources for instructional materials are available. An appointed committee was formed by the State Board of Education on November 20, 2014 and January 14, 2015.

Application to Serve on the Committee

In keeping with this goal, several types of resources have been developed and can be applied to serve on the Committee.

The Instructional Units promote inclusive education and collaborative differentiated instruction.
